Registration Report

Registration for the new school year has taken place over the month of February. If you have not enrolled yet, please do so as soon as possible. Getting an accurate count of children registered helps us to plan for next year and assures teachers that they will have a job. If you can't pay the registration fee now, we still need your forms and we will add it to the account. If you know anyone that has shown an interest in Trinity, be sure to let them know that classes are taking registrations now for the fall and summer sessions. For forms and availability come by and see Claudia or stop in at the Preschool Office.

The Giving Tree

Thank you SO MUCH for all of your help stocking the Food Pantry! We did great and the food committee is so appreciative.

AND as far as the Super Bowl, they may have beaten us in it, but we buried them when it came to the Food for the Hungry challenge. The North Carolina Conference collected a total of 636,891 items and 177,000 pounds of potatoes from two gleanings events from 75 churches and organizations with Trinity UMC being one of them. The challengers from Denver collected 360,664 items during the same time period from over 140 sites in Colorado and several western states.

Butter Braid Fundraiser

My FAVORITE Blueberry

Is your mouth watering yet? Starting March 8th we will be having a fundraiser selling Butter Braid pastries. They come fully prepared, you just thaw and let rise, pop them in the oven and let your family think you slaved for hours. We

will start on March 8th and orders are to be turned in by March 21st and the delivery date is April 12th at pick up time 12:30. We are raising money for the playground.

Yard Sale Coming

If before that time, you know anyone that can wear 1X or 2X size clothes let Miss Claudia know. Each item priced \$5 whether it sold for \$15 or \$100. 90% of the clothes came from Coldwater Creek and Belk.

With Love from Miss Claudia

Years ago my first activity in the morning was to turn on the TV, in my bed room to find out what was happening

in the world. The older I get, the more my priorities change. No longer is there a TV in my bedroom. I read more. From my desk, you can tell that I am very Abstract Random. I am usually reading three different books at one time: Fiction (James Patterson's anything with Alex Cross character in it) Inspirational (favorite author Mac Lucado) and Non Fiction (obsessed with brain development; the more I learn the more I know that God indeed is an amazing creator). Now my interest in the morning is what is happening in the lives of the people I love, my family and my friends...so I open up Facebook. Today, at the very top of the page I saw today is leap day. It got me thinking that the 29th is sort of like a gift. I am 64 years old and I have only had 15. You would have to live near 120 years to receive a whole month, so I would say they are pretty special. They are so special that I heard on the radio that there is a movement

to make every February 29th a Federal Holiday. All the way into work today I thought that this gift of an extra day should never be wasted. Today my plans were after work to go home, eat left overs, shower early, find my softest robe, curl up in my favorite chair and color in my new adult coloring book. I am right in the middle of a sea scene and another page filled with flowers...abstract random again...

I am not going to do that. First when I finish work I am going to exchange some items to Belk that I have had in my trunk for over a week. I am going to call my Mama, just to chat and talk long enough that she can tell her "Remember When" stories and at 89 she has many wonderful ones. I am going to go to dinner with a friend and save the left overs. In other words, I am going to fill this day with as many activities as I can, How about you?

Why do we have Leap years?

There is a very good reason for having Leap Years. The earth takes actually

365.2422 days to complete it's orbit around the sun but our calendar has 365 days on it. If we did not add that fourth of a day, our seasons would not match our calendars eventually. In four hundred years we would be celebrating Christmas around the time the sun was crossing the autumn equinox.
