May Day

Spring is FINALLY here so May Day plans are under way. May 1st will be a fun filled day for all children and their families. At 10:30 the children will

run out to your applause, "DANCE" around the May Pole, and then the games will begin! There will be relay races, tug-of-war, and other field type games with each class.

Bring lawn chairs or a blanket and don't forget to bring your cameras to catch all the action. Bring a picnic lunch for your family or plan to buy lunch from the Trinity Café.

We will eat family style together on the front lawn. After the games, we will give out the May Day medals to each child, take a group photo, and bless our food. Please plan to stay and join us for a picnic lunch together on the grounds.

6/25– 6/27 "Oh, The Places You'll Go!"

Having fun with Dr. Seuss! We'll be using several Dr. Seuss stories to help students learn letter sounds, how to identify rhyming words, and several other early-reading skills!

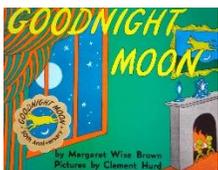

7/9– 7/11 "If You Give a Mouse a Cookie"

We will enjoy giving a cookie to a mouse, a muffin to a moose, and a doughnut to a dog! Then we'll go to the kitchen and see if we can cook up some of our own recipes.

Session Two

Trinity's 2019 Summer Adventure Camp For Elementary Ages Rising 1st – 6th Graders!

Session One – Art Camp

I was an art major and an art history minor at the University of North Carolina at Charlotte. I thoroughly enjoy teaching others new techniques and exploring new ideas with different mediums, textures, and concepts. I am very excited for us to learn about several artists and study their unique techniques as we work to become artists ourselves.

6/11 – 6/13 – "Art: The Basics"

Campers will focus on the basic aspects of art. We will learn about color theory – learning about the color wheel, complimentary colors, and mixing colors. We will also work on projects that will help develop some basic art skills.

6/18 – 6/20 – "Monet: Impressionism"

Monet is considered "The Father of Impressionism." This week, we will study how he was instrumental in developing this style of painting, as we venture outside and paint landscapes just like Monet would have insisted we must do!

6/25 – 6/27 – "Picasso: Cubism"

We will abandon the perspective of a single viewpoint and instead use simple geometric shapes and interlocking planes to create a masterpiece! We will be using cubism to paint anything from simple objects to a self-portrait.

7/9 - 7/11 – "Jackson Pollack: Just For Fun"

Jackson Pollack was an American painter and a major figure in the abstract expressionist movement. Famous mostly for his splatter paintings, we will learn his techniques and create our own art in lots of fun ways – outside, of course!

Season Two - Magic Tree House Adventures

The Magic Tree House Adventure book series features Jack and Annie, brother and sister, as they journey around the world and study history through their magic tree house in the Frog Creek woods. We use these books to help students dive deeper into the subject matter, learn about many different events in history, and study other cultures.

7/16 – 7/18 – "Tigers at Twilight"

Join us as we travel to India and get stalked by a hungry tiger! This week, we will learn all about the culture of India. We will have a guest speaker join us to teach us more about the language, food, art, and dress of this majestic land.

7/23 – 7/25 - "Afternoon on the Amazon"

Vampire bats and killer ants? That's what we run into when we're whisked away to the Amazon River. While we are hopelessly lost with them, we will learn all about the Amazon Rain Forest – the layers, the animals, and more!

7/30– 8/1 - "Stage Fright on a Summer Night"

The show must go on! From Elizabethan England, we will study the work of William Shakespeare! We may even put on our own play for the parents! Hope our actors cooperate better than his. We will be ready for our big entrance?

8/6 – 8/8 - "A Big Day for Baseball"

LET'S PLAY BALL! The magic tree house will whisk us away to New York in 1947 to watch a baseball game. From the dugout, we will learn all about the Brooklyn Dodgers #42, Mr. Jackie Robinson, and why that game was so important.

With Love from Claudia

May is **SO HARD**. We have a group graduating that have been a part of our school for many years. I don't know if you know this, but we **LOVE** your children. They become part of us. When you see it magically click and they learn a skill that in the past has alluded them, our hearts swell with pride. They start Trinity as baby birds and each day we watch them grow and get stronger. **Our graduates ARE ready!** The most important thing that they have learned is that they are each perfectly made by God and that **EVERYONE** in their group plays an equally important part of the community. I have watched so many Trinity kids grow up into adulthood and they all are ahead of the game when it comes to the ability to work with a group of people, as a team. In this day of technology, you can google the answer to any question. There are step-by-step YouTube videos that guide you through any job that you want to perform. So much knowledge at our fingertips, but it does not teach them how to be a community. That has always been what we strive to do here. So, as I look at this group of soon-to-be graduates this year, my heart is heavy, but I know that over the years, the teachers at Trinity have given them everything that they had to make them successful. So little birds, you are ready. **IT IS TIME TO SOAR!**
